Curriculum Writer

Accolades

Selected as a High Impact Teacher by the state of Florida yearly
Thank you for giving me the opportunity to introduce myself.

My Name is Amna Alian. I have taught mathematics for about 20 years.
I have taught at Palm Beach State College as adjunct math professor of over 10 years.
I'm currently working as middle school teacher. I teach Geometry Honors to 8th
grade advance math students. I also teach 7th grade advance math.
I have also worked as curriculum writer for the school district.

I have my own You Tube Channel that I use with my own students. I have over
70 math videos that I produced. I'm interested in exploring other online teaching
opportunities especially after this pandemic year where teachers where forced to
teach simultaneously to students in class and at home. I found it to be extremely
enjoyable.

I'm excited to be considered for a position with USA-teach.online.
It would be an honor to be a part of something so valuable and can make a huge
impact in the lives of our Muslim brothers and sisters every around the world.
Thank you for considering my application to teach mathematic or education courses
to teachers. I'm certified in both areas.

Thank you,
Amna Alian
